COVID-19 New Modification Restrictions Effective 11/16/2020

Sunday, November 15, 2020, Governor Inslee announced [modifications](#) to the current COVID-19 restrictions in response to the current rise in cases across Washington State.

There are no additional restrictions on construction at this time. However, during the Governor's press conference yesterday, he did indicate that positive cases were increasing on construction sites, and that they would be tracking the statistics over the next 2 - 3 weeks - to see if additional restrictions would be necessary for construction sites in the future. It is crucial to our industry for both our contactors and members to follow the guidelines; we do not want to be shut down for any length of time. The IBEW LU 191 and NECA would like to thank you in advance for taking every precaution possible to ensure all workers are safe.

Unless otherwise specifically noted, the modifications took effect at 12:01 a.m., Tuesday, November 17, 2020. All modifications to existing prohibitions set forth herein shall expire at 11:59 p.m., Monday, December 14, 2020, unless otherwise extended. If an activity is not listed below, currently existing guidance shall continue to apply. If current guidance is more restrictive than the below listed restrictions, the most restrictive guidance shall apply. These below modifications do not apply to education (including but not limited to K-12, higher education, trade and vocational schools), childcare, health care, and courts and judicial branch-related proceedings, all of which are exempt from the modifications and shall continue to follow current guidance. Terms used in this proclamation have the same definitions used in the Safe Start Washington Phased Reopening County-by-County Plan.
